

LEVEL II

PUBLIC ORDER GUARDS

CHEST & BACK GUARD / GROIN GUARD / METATARSAL GUARD
SHOULDER & UPPER ARM GUARD / FOREARM & ELBOW GUARD
THIGH GUARD / SHIN & KNEE GUARD

OVERVIEW

Designed to provide protection without impeding movement against the injury potentially caused by axes, machetes, projectiles, darts, bricks and hypodermic needles or other missiles thrown or skated, strikes by batons, poles or bars, kicks, punches, and catapulted missiles that may be used in operational or training scenarios

KEY FEATURES

The Chiltern Global range of public order limb protectors provides maximum protection against axes, machetes, projectiles, darts, baton bricks and hypodermic needles

Constructed from Acrylonitrile Butadiene Styrene (ABS) plastic with closed cell Ethylene-Vinyl Acetate Copolymer foam (EVA) backing for added comfort

Level II Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4

Assessed for comfort when worn for extended periods of time, ease of donning and any restriction to movement during physical activity. Guards are specifically shaped for left and right side of the body to give maximum comfort to the wearer. Right side guards highlighted with a yellow tab for ease of identification

Achieved an excellent ergonomic score for requirements of BS7971-4

Materials - Outer shell: 4mm moulded extinction ABS / Impact foam: 12mm black EVA / Retention straps: 50±5mm or 30±5mm polyester, polypropylene or nylon webbing or cowhide / Strap covers: Protex cotton / Rivets: black coated steel / Plastic buckles

Certification: Tested to BS7971-4 and/or HOSDB

Colour: Black (other colours available upon request and subject to MOQ)

Warranty: 12 months

Shelf Life: 5 years

CHEST & BACK GUARD CG100

Ergonomically fitted across shoulders and around the waist by 50mm nylon webbing straps, allowing for considerable adjustability to fit a range of sizes. Designed to give maximum protection to the back torso and vital organs. Upper straps provide a securing point for the CG269 Shoulder & Upper Arm Guard

Size: One size fits all

SHOULDER & UPPER ARM GUARD CG265 / CG269

The CG269 Shoulder & Upper Arm Guard is designed to be worn as a separate item for use with a tactical or ballistic vest or in conjunction with the CG100 Chest & Back Protector and provides a high degree of protection to the upper arm, shoulder and collar bone area whilst giving a high degree of flexibility

Right side guard highlighted with a yellow tab for ease of identification

Sizes: Short, Regular, Long & Extra Long (see size guide)

The CG265 is the upper arm part of the CG269 but with an extra securing strap. It is designed to be worn as a separate item when use of the full CG269 is not required or practical. The CG265 is available as a special order

Sizes: Short, Regular, Long (see size guide)

FOREARM & ELBOW GUARD CG260 / CG261 / CG262

The CG262 Forearm & Elbow Guard provides a high degree of cover and protection to the wrist, forearm, and elbow. Velcro straps are easily adjusted to give maximum security to prevent unnecessary movement and to allow for comfort when work over prolonged periods. Straps have a fire retardant Protex cotton outer cover to prevent chaffing or rolling of the elastic.

Also available in the range are the CG260 Slimline which is a reduced width option

Right side guard highlighted with a yellow tab for ease of identification

Sizes: CG262 Short, Regular, Long / CG260 Extra Short, Short, Regular / CGD261 Short, Regular, Long (see sizing guide)

THIGH GUARD CG263

Designed to ergonomically fit the front and side of the thigh to protect the muscle and nerve groupings. Thigh guards secure around the user's leg with the elasticated strap and also are supported with trapping that fits over the users belt or the belt strap of the CG109 / CG135 Groin Guard

Right side guard highlighted with a yellow tab for ease of identification

Sizes: Extra Short, Short, Regular, Long (see sizing guide)

SHIN & KNEE GUARD CG264 / CG266

As with the Forearm & Elbow Guard range the CG264 Shin & Knee Guard provides a high degree of cover and protection. The guards are specifically shaped for the left and right leg for a superior fit. Velcro straps are easily adjusted to give maximum security to prevent unnecessary movement and to allow for comfort when work over prolonged periods. Straps have a fire retardant Protex cotton outer cover to prevent chaffing or rolling of the elastic

NOTE: Shin & Knee Guard designed to be worn in conjunction with CG268

Sizes: CG264 Short, Regular, Long, Extra Long / CG266 Extra Short, Short, Regular, Long, Extra Long (see sizing guide)

METATARSAL GUARD CG268

Extra protection for the top of the wearers foot the CG268 Metatarsal Guard worn by simply threading the strap under the boot lacing and back over the top of the guard giving a high level of protection to the delicate bones of the foot.

Size: One size fits all

GROIN GUARD CG109 / CG135

Specifically designed to protect the groin and pelvic area. Made from black drill cloth, Cross-Link foam and elasticated waist belt elasticated waist. Internally the

Female version CG135 also available

Size: One size fits all
